

Scrip Talk[®]

**Take Two
Capsules
Daily**

*Do you have trouble reading
your prescription labels?*

Now there's a solution!

**Talking
Prescription
Labels**

**Available in
Multiple Languages**

How Does It Work?

A label is attached to your prescription container. Place the prescription container on the ScripTalk Reader to hear your prescription information read out loud or download the free ScripTalk Mobile App, open the App, hold the prescription container over the front of the iPhone App or the back of the Android phone to hear the prescription information read out loud.

Multiple languages are available.

What Is the Cost?

This is a **FREE** program. The ScripTalk Reader is supplied on loan to patients at no cost from En-Vision America.
