

# Script View®

*Do you have trouble reading  
your prescription labels?*

*Now there's a solution!*

**Large Print  
Labels**

**Available in  
Multiple Languages**

## How Does It Work?

A large print label will be attached to your prescription container. A QR code is also printed on the label, which you can scan with a smartphone using the ScriptView App to hear your drug information read out loud.

## Are Large Print Labels Available in Different Languages?

Yes, printed prescription labels are available in different languages.

## What Is the Cost?

This is a **FREE** program. There is no cost to receive large print labels.
